

Hearts Day Embroidery Patterns

To use this embroidery pattern, simply print out and tape to a brightly lit window, then tape your fabric up and trace (my favorite method!), or use transfer paper or a transfer pen/pencil (follow manufacturers instructions).

- Colors are suggested...but the possibilities are endless.
- Try a variety of stitches for a variety of results.
- Hint: French knots make great eyes, but for those tiny eyes on the heart flowers, try making one teeny stitch.

This pattern is for your personal use only. Please do not sell items with these embroideries on them. Thank you.
